ABOUT ME

Separated, single parent with two kids age 5 and 10. Like keeping up with new software and hardware, but outside of computers I enjoy spending time outside, watch English football or play games with my kids.

SKILLS

Languages I know;
Intermediate to Advanced
C#
Intermediate Python, Swift,
C++
Novice JavaScript, PHP,
Ruby, HTML, CSS

Tools I have used;
Visual Studio Community
Visual Studio Code
Xcode
Unity
Unreal Engine
Vim
Terminal
Git

Windows
Linux (.deb)
OSX

EXPERIENCE

FUTURE WORK

Contracted by Nord University to attend a course on Programming and Makers Faire in School in Oslo in November, then follow up by creating and hosting at least one Makers Faire in Steinkjer.

IOS DEVELOPER • HUCON GLOBAL • 15/02/18–PRESENT

Started out as an intern in February and got a full-time job in June. Responsibilities was initially to learn the systems of the company and maintain an application created to simplify the report system for helicopter simulator instructors while also adding a human factor component to their training systems.

After starting full time, I was tasked to take over a previously started project of an in-flight application to be used for helicopter pilots that would create a report that they otherwise had to manually enter into the backend web-based system they used that our company provided.

I re-designed and built the application pretty much from scratch, but I did not change or touch the REST API system that was already created.

Due to the company not finding new clients, two people were made redundant, and as I was no longer working on software that were currently in use by clients I was one of them.

FISHERMAN • VARIOUS • FEBRUARY 2001 – FEBRUARY 2013

Started out on fishing boats in 2001 after leaving High School where I had been studying to work within the food industries. Worked for several different companies on 9 different boats, mostly with the same two companies.

PROGRAMMER | [GITHUB.COM/XENOPH](https://github.com/xenoph)
[HTTP://WWW.DAHLE.ME](http://www.dahle.me)

I had some jobs on land in between, but long days and very hard manual labour took its toll, and in 2013 my doctor deemed my back not fit to continue with that line of work.

**HEALTHCARE ASSISTANT • QUEEN ELIZABETH HOSPITAL
GATESHEAD • APRIL 2008 – MARCH 2009**

Started out in the day surgery, welcoming patients and providing them with information about their stay and helping them to and from surgery rooms, and making sure they were okay and got what they needed when returning.

Moved into the surgery rooms after a few months, helping the nurses and doctors by setting up the rooms before a surgery, running errands while the surgery was on-going and cleaning up after the surgery was finished so the room could be used again.

**WAREHOUSE OPERATIVE • COMET SUNDERLAND • MAY 2007 –
FEBRUARY 2008**

Worked in the back of house of an electronic retailer while also assisting customers with sales inside the store if needed and provided service for customers who required help with their goods to their vehicles.

EDUCATION

GAME DEVELOPMENT BA • 04/06/18 • NORD UNIVERSITY

Graduated with an average grade of C+.

Achieved a B in Basic Programming, Programming 3D Games and Mobile Network Application – and C in Basic AI and Programming Network Application.

PROGRAMMER | [GITHUB.COM/XENOPH](https://github.com/xenoph)
[HTTP://WWW.DAHLE.ME](http://www.dahle.me)

For the group project classes where my task was to program games, Game Lab 1-6, I earned a B in 1,2, 4 and 6, a C in 3 and an E in 5.

IT SERVICEMAN • 15/06/15 • VERDAL HIGH SCHOOL

As the government funded my retraining I decided to try IT, however, the local job centre failed to inform me that there were no jobs, or even trainee places, which is why I started at a university instead.

UNIVERSITY ADMISSION CERTIFICATE • 15/06/05 • KRAGERØ ADULT LEARNING SCHOOL

As I left school to work on fishing boats at the age of 18, I returned in 2004 and took a year to finish most of the classes needed to gain access to higher education in the future.

VOLUNTEER AND OTHER ACTIVITIES

Volunteer during Trondheim Developer Conference 2018.
Creator and host of Game Development Workshop for kids during summer 2018.

Economy Manager in InDev, the student organization for my course, 17/18.

Student Representative from Nord on the Excited board in 17/18.

Volunteer during the NxtMedia Conference 2017.

Representative on the board of the welcoming committee for the new school year in 16/17.
